

Clint Independent School District
Clint High School
2023-2024 Campus Improvement Plan

Mission Statement

All students graduating from Clint High School will be well-rounded, successful, productive members of society; skilled both socially and academically with a mindset to succeed and a passion for lifelong learning.

Vision

To equip all Lions with the skills to find their internal grit, seize their opportunities to reach their potential, and have the courage to live with great purpose.

Value Statement

“Win the Day!”

Demographics Strengths

Demographics Strengths

CHS continually demonstrates high cohort graduation rates with greater than 98 % percent of students graduating within their cohort within 4-years.

CTE coherent sequence, industry based certification, armed forces enlistment, TSI criteria, dual credit coursework, and AP criteria significantly improved to increase the overall CCMR from approximately 45% to 95% in one year.

Problem Statements Identifying Demographics Needs

Problem Statement 1: EB students consistently achieve significantly lower scores than their native English speaking counterparts. **Root Cause:** Lack of comprehensible input.

Student Learning

Student Learning Summary

Overall Student Achievement Data is promising. Special Populations all improved from last school year.

Student Learning Strengths

CHS was at or above the state in all STAAR EOC Spring 2023 data. Designations and accountability ratings will be released in September.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: Special education populations demonstrate a need for increased achievement in ELA EOC tests. **Root Cause:** Lack of comprehensive implementation of effective differentiation strategies.

School Processes & Programs

School Processes & Programs Summary

School Processes & Programs Summary

STEM / Genesis - Clint High School started the Genesis Program as an advanced academics program 11 years ago.

Agriculture/ Vet Tech Program - Clint High School's Ag program has a total of students enrolled. This school year is the fifth year of the CHS Vet Tech program. The Vet Tech program is a three-year program. In Dec. of the third year, students will take the Vet Tech Certification Test. The first cohort of Vet Tech students was a group of Juniors who committed to an accelerated program in order to finish in two years. Students take the certification exam between December and March of their senior year.

During 2018-2019 CHS began its planning phase to be a P-TECH school. The 2019-2020 school year was the first year of implementation for P-TECH in automotive technology. Last year's first cohort of automotive technology P-TECH students graduated from EPCC with Associate of Applied Science degrees or Industry Level II Certificates. CHS has 4 active P-TECH Cohorts.

Biomedical engineering was started in 2020 - 2021, and now has 4 cohorts of students. The pathway utilizes the Project Lead the Way curriculum and is looking at industry certifications.

OnRamps is a Dual Enrollment program with the University of Texas at Austin. 2022-2023 CHS will continue its partnership with the UT Austin OnRamps program offerings will be expanded to include Physics and Computer Science.

EPCC Dual Credit - CHS partners with EPCC to provide its students with dual credit courses in math, social studies, science, music appreciation, automotive technology, and ELAR.

Attendance - This year the CHS goal for attendance is 96%. The 2021-22 attendance rate was 94.6%

Teacher Retention

At the end of the 2022-23 school year CHS had the following teacher turnover:

3 teachers resigned (remained in education)

1 teacher went back to school

LEP/ESL program at Clint HS is a content-based program that encourages EL students to acquire a mastery of the language skills needed for success in school. 6 of 7 English teachers are ESL certified. All other teachers in the department and on the campus are trained in sheltered instruction strategies. EL students are monitored through the LPAC and RtI committees. ELs who have failed ELA 1 or ELA 2 are placed in an EOC remediation class.

Supplemental Learning Spaces: The Makerspace at Clint High School has proven to be a valuable and supportive area for students to enhance their classroom learning. This supplemental area of learning is hands-on, provides project-based learning (PBL) opportunities for all students to grow in the content areas of math, science, technology, engineering and art. In order to provide a 21st century space for students to enhance classroom learning concepts, we will continue to purchase furniture pieces, technology components, programs and other supplies to build on, year after year. Our goal is to create spaces that are designed for varying levels of application with alignment to TEK standards in order for students to excel in the taught curriculum and ultimately on state assessments.

PARENT COMMUNITY ENGAGEMENT

Translating Essential Information for Parents & Family Members

The Clint ISD has an obligation to ensure meaningful communication with parents and/or family members in a language they can understand and to adequately notify parents and/or family members of information about any programs, services, or functions/activities within the district and its schools.

Schools will communicate with parents and family members in a language and format a parent and family member can understand. This often will include translated documents and a language interpreter (if needed and upon request) for meetings and/or conversations.

CHS purchased and provides translation devices for non-English speaking families at community engagement events Schools will communicate with parents and/or family members

important information and opportunities for their child(ren). The information includes but is limited to:

- Registration and enrollment processes in school
- Grades, academic standards, and graduation
- School rules and student discipline
- Attendance and withdrawal procedures
- Parent permission for activities/programs
- School closures (due to holidays, inclement weather and other situations)
- Opportunities to access programs and/or services (English language learner programs, advanced placement, dual language programs, and other academic related programs, etc.).
- Special education and services available for students with disabilities

Schools will utilize various options to determine the common language(s) used at home through the data reported in various forms of school related documents, for example:

- Home Language Survey
- Parent and Family Engagement Survey (the language used to complete the survey)
- Language used to complete the online student registration packet (returning students)
- Language used to complete the on-site student registration packet (new students)
- Other forms of school related documents

The data utilized to determine the common home languages will be documented in the district/campus needs assessment every year and strategies on ensuring parents and/or family members are provided with meaningful communication in a language and format they can understand are addressed in the district/campus improvement plans.

For languages not common, the school may use a cover page explaining in those languages how a parent may receive oral interpretation of the form and should offer interpreters to ensure parents and/or family members accurately report their language communication needs on the form.

The translation procedures are subject to change and will be modified in accordance to updates and guidance from the U.S. Department of Education (USDE) and the Texas Education Agency (TEA).

Comparability of Services

The Title I, Part A Comparability of Services report is one accountability requirement. The district will complete the required report, as required by TEA, and it will be reviewed by the Federal Programs Director and the Superintendent prior to submission. The report will be generated, calculated, completed and submitted by the Chief Financial Officer. The District is required to meet one test for all campuses across the board.

School Processes & Programs Strengths

CHS has multiple different pathways to promote real-world learning and have students acquire Associate degrees and industry certifications while in high school.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: Special education populations demonstrate a need for increased achievement in ELA EOC tests. **Root Cause:** Lack of comprehensive implementation of

effective differentiation strategies.

Perceptions

Perceptions Summary

Perceptions Summary

Purpose Statement

- To equip all Lions with the skills to find their internal grit, to seize their opportunities to reach their potential and to have the courage to live with great purpose.

Mission Statement

- All students graduating from Clint High School will be well-rounded, successful, productive members of society; skilled both socially and academically with a mindset to succeed and a passion for lifelong learning.

Motto

- "Win the Day!"

Honor Statement

- As a Lion, I will be intrinsically motivated to persevere in my academic and personal endeavors and encourage others to do the same.

Core Values

We believe that all LIONS WILL discover their greatness within.

- We believe that we are responsible for our behavior.
- We believe in the value of quality work.
- We believe in being solution driven.
- We believe in serving the community.
- We believe that teamwork results in excellence.
- We believe that showing up today will make us better tomorrow.
- We believe that honoring diversity strengthens us.

Attributes of Excellence

CLASSROOMS NEED ALL STUDENTS TO CRITICALLY

Read

Think

Talk

Write

EVERYDAY!

Perceptions Strengths

CHS has a student focused approach. Teachers present instruction relevant to real life situations for students which motivates students to learn. CHS teachers and instructional strategies focus on meeting the needs of all CHS students and providing opportunities for student engagement to increase social emotional development, cross cultural learning, and language acquisition opportunities.

Teachers and administrators support social emotional learning.

Administrators, teachers, and support staff communicate effectively with families to promote an atmosphere of diversity and welcome community feedback and involvement.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Parents do not engage in and regularly support school events. **Root Cause:** Economic and social challenges.

Priority Problem Statements

Goals

Goal 1: Clint High School will be a model of high standards for student academic excellence.

Performance Objective 1: All student groups and student sub groups will improve their performance on the EOC STAAR tests (English 1, English 2, Algebra 1, Biology, and U.S. History) in 2023-24 by 5% by engaging in effective, rigorous instruction and receiving additional support as needed to master the standards.

Strategy 1 Details	Reviews			
Strategy 1: Provide STAAR/ EOC targeted remediation classes through student pull-outs, structured tutoring, Saturday school, Fall and Spring intersession with access to bus transportation for those in attendance. Planning for STAAR/EOC camps. State Compensatory

Budget for Clint High School

Total SCE Funds: \$345,406.38

Total FTEs Funded by SCE: 6.76

Brief Description of SCE Services and/or Programs

Coding of At Risk Students Clint ISD uses the At-Risk Criteria to code students and benefit from the SCE program. The campus administration will ensure that all students, who meet At-Risk Criteria, are coded in the appropriate PEIMS submission. The PEIMS department reviews the criteria annually, and ensures all criteria are reviewed and submitted into the student data system – SKYWARD. Annual PEIMS Reviews ensure the coding is correct. Student Supports At all levels, staff are put in place to provide student supports and accelerated instruction. . At the High School Level, courses are also funded to support students to improve their academics. High School campuses also have funded curriculum coach positions and campuses have allocated funding for supplemental resources, extra duty pay for tutoring and travel for staff to gain knowledge of how best to support students. The District Level funding is allocated to providing resources to the campuses in technology, online learning tools and other resources. Activities and Support Programs All district campuses conduct intervention programs to strengthen student academic skills. Campuses, at all levels, use SCE funds for extra duty pay for tutoring which will occur before, after-school and on Saturdays. The district also may use SCE funds for intersession. All campuses place SCE funding for resources to support intervention programs. High School campuses use SCE funds for dropout prevention programs, credit recovery intervention programs and support for students to ensure that they graduate from high school. These programs are designed to compliment the regular education program and offer additional supports for students who meet the SCE criteria. Data Review and Program Evaluation The campus and district teams, review student academic data after formative and summative assessments have been administered to ensure the success of programs, use of resources and effectiveness of staff. The Federal Programs annually evaluates the programs, staff, and activities funded through the SCE program. Campuses ensure that all activities are funded with the appropriate SCE funds which are actually entered into strategies of the CIP and DIP.

Title I

1.1: Comprehensive Needs Assessment

Clint High School will ensure all students on the campuses demonstrate proficient and advanced levels of academic achievement on state standards. The development of the comprehensive improvement plan for each school-wide campus program, the entire community, composed of students, parents, and staff will ensure the programs developed are based on the campus needs in an effort to promote an overall capacity of campus and district successes. Based on the economically disadvantaged criteria, Clint High School will implement the schoolwide Title I program. In order to develop this plan, CHS conducted a comprehensive needs assessment to ensure that our plan is aligned with the new ESSA requirements and the new Texas Accountability System.

The following data was reviewed:

- Data from the T-TESS evaluation system
- STAAR Participation Scores
- EOC Scores from June 2022
- STAAR Student Scores
- District Benchmark and Interim Assessments
- Special Population Scores
- CTE Data

2.1: Campus Improvement Plan developed with appropriate stakeholders

The Clint High School Site-Based Committee will review the plan in June/July 2022 and make recommendations included in the final published document. The committee this past Spring, created the plan by reviewing strategies, data and updating each portion by goals.

Workgroup documentation was kept for each goal, and the committee met to review the CIP, approve waivers, and provide feedback. Campus teachers also helped to create the CIP by reviewing their goals and updating the strategies. The CIP will be posted online for the community.

2.2: Regular monitoring and revision

The CIP is a working document that changes as the District's needs change. The Admin will update sections as the need for purchases or new initiatives/strategies arises. Furthermore, the admin team will monitor the plan during the review months - September, November, January, and May. Each goal will be updated and notes on the progress of the CIP will be included. During the review months, any revisions will be done by each department.

2.3: Available to parents and community in an understandable format and language

The campus will provide reform strategies as interventions for all Title I school-wide campuses to ensure the needs of all children, but particularly the needs of children of target populations of any program use effective methods and instructional strategies based on scientifically based research to ensure the state academic achievement standards are met. The campus District implemented the Countdown to Zero program to ensure students are receiving all of their credits and support when they need to recover lost credits which ensures they are on target for graduation. Again during 2022-2023, the District will operate on a balanced calendar with student support intersessions in October and March. Throughout the year, the campuses will have additional support as well for students through an intervention program named I-SUPPORT. These intersessions will focus on students who are at risk or not on grade level, behind in the credits, or need support to be successful on the state assessments. Also, Title I funds are allocated to support the AVID program, instructional software and afterschool tutoring programs. ESSER funding will be provided to campuses to support interventions, SEL programs, fund staff and provide additional instructional resources.

2.4: Opportunities for all children to meet State standards

The campus will provide reform strategies as interventions for all Title I school-wide campuses to ensure the needs of all children, but particularly the needs of children of target populations of any program use effective methods and instructional strategies based on scientifically based research to ensure the state academic achievement standards are met. The Campus District implemented the Countdown to Zero program to ensure students are receiving all of their credits and support when they need to recover lost credits which ensure they are on target for graduation. Again during 2022-2023, the District will operate on a balanced calendar with student support intersessions in October and March. Throughout the year, the campuses will have additional support as well for students through an intervention program named I-SUPPORT. These intersessions will focus on students who are at risk or not on grade level, behind in the credits or need support to be successful on the state assessments. Also, Title I funds are allocated to support the AVID program, instructional software, and after-school tutoring programs. ESSER funding will be provided to campuses to support interventions, and SEL programs, fund staff and provide additional instructional resources.

2.5: Increased learning time and well-rounded education

Clint HS will provide any student who did not pass STAAR EOC assessments, accelerated instruction must be delivered in the 2022-2023 school year (starting in fall 2022) or subsequent summer 2022. Accelerated instruction entails either 1) assigning a classroom teacher who is a certified master, exemplary, or recognized teacher, or 2) delivering supplemental instruction (i.e., tutoring) before or after school, or embedded in the school day and meeting HB 4545 requirements. Clint ISD has titled the program I-SUPPORT for the 2022-2023 school year.

Each campus must establish an ALC for students who did not pass the STAAR in grades 8th math or reading beginning to the start of the school year. The ALC's must be conducted immediately so that the intervention plans must be developed and put into place starting on

August 2, 2022. Remember an ALC must also be conducted for a student who did not take the STAAR test; TEA records any student who did not take the exam as a student who did not meet Approaches or higher. Only students in these grade levels must have a formal ALC, but the other grade levels must have a plan and process to monitor student achievement during the implementation of the plan.

All Clint High school students who did not take the EOC exams or did not score Approaches Grade Level on the Spring 2022 STAAR exams will also be part of the targeted group. Middle School Algebra I students who did not score Approaches Grade Level will be included in this program as well. High School students who took the STAAR EOC in June 2022 and scored Approached Grade Level or higher will no longer be included in the targeted group for any EOC exams that they passed. Any EOC exam that a student did not have at least Approaches Grade Level will be required to completed accelerated instruction.

All students will have a scheduled time for accelerated instruction. During the 2022-2023 school year, students will be provided targeted intervention before, after and during school. These intervention times must be documented and provided at least 30 minutes a week, per subject. Each campus will work with their respective Assistant Superintendent to develop an approved plan that is uniform and consistent. We will need to provide information on the I-SUPPORT plan to TEA as needed so all program requirements will be adhered.

All student plans must have data to drive their development. Campuses should use STAAR data, MAP data, screener data, and at the high school level course completion data. Accelerated instruction should meet the following requirements:

- Delivers targeted Texas Essential Knowledge and Skills (TEKS)-aligned instruction for the applicable grade level and subject areas
- Is provided for no less than 30 hours total (The recommendation is for 30 hours each semester)
- If a student does not pass the mathematics and reading STAAR, 30 hours of accelerated instruction must be provided for each subject area.
- Is designed to assist the student in achieving satisfactory performance in the applicable grade level and subject area
- Utilizes effective instructional materials designed for supplemental instruction.
- Is delivered in a 1-on-1 or small group environment, with no more than 3 students in a small group (or in a larger ratio with permission from all parents or guardians connected to students in the group)
- Is provided by an individual with training in aligned instructional materials and under the LEA's oversight

To the extent possible, is provided by one person for the entirety of the student's supplemental instruction period.

2.6: Address needs of all students, particularly at-risk

All student groups will have campus supports where the master schedule will be leveraged to schedule students in classes that can identify gaps and ensure acceleration of instruction. Student plans will be developed to address any learning gaps.

All student plans must have data to drive their development. Campuses should use STAAR data, MAP data, screener data, and at the high school level course completion data. Accelerated instruction should meet the following requirements:

- Delivers targeted Texas Essential Knowledge and Skills (TEKS)-aligned instruction for the applicable grade level and subject areas
- Is provided for no less than 30 hours total (The recommendation is for 30 hours each semester)
- If a student does not pass mathematics and reading STAAR, 30 hours of accelerated instruction must be provided for each subject area.
- Is designed to assist the student in achieving satisfactory performance in the applicable grade level and subject area
- Utilizes effective instructional materials designed for supplemental instruction.
- Is delivered in a 1-on-1 or small group environment, with no more than 3 students in a small group (or in a larger ratio with permission from all parents or guardians connected to students in the group)
- Is provided by an individual with training in aligned instructional materials and under the LEA's oversight

To the extent possible, is provided by one person for the entirety of the student's supplemental instruction period.

3.1: Annually evaluate the schoolwide plan

Several members of the school faculty meet quarterly to evaluate and modify the school-wide plan based on available data. We gather data from the budget, academic performance, parental engagement activities, attendance, and various other sources to inform plan changes.

4.1: Develop and distribute Parent and Family Engagement Policy

The campus will use scientifically based research strategies to promote and increase the parent & family engagement efforts in all Title I school-wide campuses. The Communities in Schools program has been implemented to enhance parental & family engagement activities. Also, the campuses have involved parents through Parent & Family Engagement activities, technology integration, and district programs. The District has also updated its software applications and programs to provide parents with more information about the district's activities and programs.

4.2: Offer flexible number of parent involvement meetings

Our Communities in School Coordinators (CIS), Campus administration and Parent & Family Engagement programs have events scheduled at all campuses throughout 2022-2023 school year. Also, campus administration conducts all required parental involvement meetings and publicizes those through the web, twitter and through the District's call out system. Each campus will also have additional SEL support by having an SEL Lead Teacher who will assist with coordinating parental involvement activities to support social and emotional learning as students transition back to the campus after the pandemic.

5.1: Determine which students will be served by following local policy

Based student needs, population (ie; at risk, LEP, and other special populations) we review data and develop plans to meet the needs of these students in accordance with local policy. We utilize 25 minute homeroom daily to provide needed HB 4545 services and remediation opportunities based on student needs.
