

Clint High School
Biomedical Science

The Biomedical Science Program is an Academic Pathway designed to put students on a pathway to be prepared for a career or secondary education in the Biomedical Science field. The Biomedical Science program of study focuses on the study of biology and medicine in order to introduce students to the knowledge and skills necessary to be successful in the healthcare field, such as researching and diagnosing diseases, pre-existing conditions, or other determinants of health. Students may also practice patient care and communication.

Students are still able to take Dual Credit, Dual Enrollment or AP Classes concurrently while in the Biomedical Science Pathway.

Recommended Pathway for Student in Biomedical Science

9th Grade	10th Grade	11th Grade	12th Grade
Principles of Bioscience	Biotechnology I	Medical Microbiology	Pathophysiology
