Clint Independent School District
William D. Surratt Elementary
2022-2023 Campus Improvement Plan

Mission Statement

W.D. Surratt Elementary School Mission Statement:

Every student, every day, whatever it takes.

Vision

At WDS, we will prepare our students to achieve their own academic potential by ensuring equal access to grade level standards, engaging instruction, and powerful enrichment opportunities that inspire a passion for learning.

Core Beliefs

Clint Independent School District Together...We Build Tomorrow

We Are:

Committed to student success as a shared responsibility among students, parents, educators, the School Board and the community.

Learner centered by ensuring that all students receive quality teaching and engaging instruction.

Innovative in using global thinking and technology to empower students to become lifelong learners.

Nuturing by creating an educational environment where all students are socially and emotionally supported, safe, and valued.

Transparent through open communication, leadership, accountability and integrity.

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographics Summary

1.School

WD Surratt Elementary is a beautiful campus located approximately two miles from the Mexican border, just twenty miles east of El Paso, Texas. We are located in a farm community, rich in culture, cotton and pecans-and our school is the very heart of Clint. We are 1 of 6 elementary schools in Clint I.S.D.

Attendance affected our student achievement in the 2021-22 year. We experienced volatile attenance rates in both teachers and students. Many classrooms had long term subs and we struggled daily to find enough substitutes to cover classes.

• 2018-2019: 95.66% ADA

• 2019-2020: 97.32% ADA

• 2020-2021: 97.78% ADA

• 2021-2022: 92.50% ADA

Enrollment has been steadily declining also.

· 2018-2019: 1037

• 2019-2020: 986

• 2020-2021: 962

• 2021-2022: 936

2. Race/Ethnicity

Our campus is comprised of the following student groups. (based on the most recent TAPR report)

Our campus is a Pre-k- 5 school with 936 students.

• Hispanic: 98%

• African American: .1%

• White: 4.5%

• American Indian: 0.2%

• Asian: .1%

2 or more: 1.8%Males: 49.9%Females: 50.1%

3. Student Groups:

- Economically Disadvantaged Students 82.3%
- Emergent Bilingual 39%
- Bilingual 43%
- Students receiving Special Education 11%
- Students At-Risk 69%
- Gifted and Talented 4%
- Title 1 participation 100%
- Homeless 2%
- Migrant- .07%
- Military Connected 1%
- Students with Dyslexia .2%
- Foster care .7%
- Students under 504 1.1%

Trends:

We have had an increase from 10% to 11% this year for SPED.

We had had an decrease from 51% to 50% in English Language Learners.

We had an increase from 64% to 69% in At risk students.

We had no change in 83% of Economically Disadvantaged Students.

4. Students by grade level: Prek-77 Kindergarten-117 1st Grade- 150 2nd Grade- 157 3rd Grade-144 4th Grade-148 5th Grade-168 **Classroom Makeup:** PK (2 mono, 2 bilingual) K (3 mono, 3 bilingual) 1st (4 mono, 3 bilingual)

2nd (4 mono, 4 bilingual)

3rd (5 mono, 3 bilingual)

4th (4 mono, 3 bilingual)

5. Staff Data: WDS is comprised of the following faculty:

Total Staff: 118

Teachers: 65- 55%

Paraprofessionals: 17- 14%

Office Staff: 12- 10%

Administration: 4 (1 Principal, 3 Assistant Principals)- .03%

Service Personnel: 6- .05%

Monitors: 4- .03%

Cafeteria Staff: 12- 10%

Teacher Assignments:

PE (2 coaches)

SPED (9 teachers)

Music (1 teacher)

GT/Dyslexia (2 teachers, shared with FME)

Curriculum Coaches (2; 1 Math/Science, 1 ELAR/SStudies)

Librarian (1)

Technology Coach (1)

SEL/PBIS (1 teacher)

Interventionist (1 teacher)

Total: 65 fully certified; 3 of which just completed a Teacher Certification program.

Experience ranges from zero to thirty years of experience.

94% of the faculty is of Hispanic descent and 6% is White.

In 2022 we had 2 teachers retire and 1 teacher leave the profession. We currently have 3 teachers that were new to the profession in 21-22 (under the support of at teaching certification program) and starting their first year as a fully certified teachers. They still have a grade-level mentor and a district assigned mentor. New teacher are on coaching plans and supported by our curriculum coaches.

- **6. Parent/Guardian/Community:** Our school has a community that is mostly economically disadvantaged. About 90% of the parents speak Spanish and professions range from migrant field workers to Master Level Engineers. The community is established and therefore the growth of the student population in declining. We have many students that are living with relatives other than parents and about 40% of them are coming from Mexico. About 30% of the students are being raised by grandparents.
- 7. Attendance: Our attendance rate at this time is at 92.50 %. Most of the absences this year were excused due to illness of or related to Covid-19. We have implemented a new attendance system that will begin tracking absences and contacting parents on the 3rd absence. Attendance incentives include free dress, pizza parties, attendance awards on a monthly basis, and we typically do recognition of medals or trophies at the end of the year. Parent sessions have been offered by our assistant pincipal, attendance clerk, and CIS coordinator to ensure parents know their current attendance status and understand the importance of sending their children to school daily. Excessive absences have been taken to court and truancy plans to make up time that includes intersession are in place. Administrators meet with parents to go over absences and given the opportunity to rectify the absences. Correlation between student achievement and absences are seen. Tardies are still a problem. Skylerts, call-outs and Dojo messages reminding parents about start time are sent home regularly. We currently post a sign outside our campus indicating if the student has arrived on time and when they are considered tardy.
- 8. **Discipline rates:** We had one serious office referral in the school year.

Demographics Strengths

Surratt's demographic strengths include:

Low teacher and student mobility

- 100% certified teachers
- An addition of key personnel to support our Covid Rebound plan:
 - SEL/PBIS teacher
 - Interventionist

Problem Statements Identifying Demographics Needs

Problem Statement 1: Half of our students are coded ELL, and yet we don't have equitable representation in school based programs such as GT, UIL, or robotics. **Root Cause:** The expectations set for our bilingual students are lower than those of monolingual students.

Problem Statement 2 (Prioritized): WDS average daily attendance has been dropping every year. Our campus goal is 98% **Root Cause:** Poor follow-up on attendance issues; poor system of tracking and support; Poor follow-up using the district truancy plan and addressing tardies during the school year.

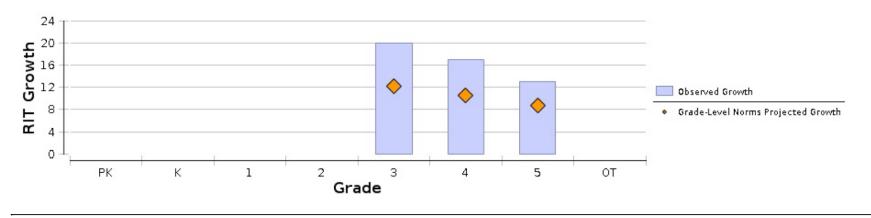

Student Learning

Student Learning Summary

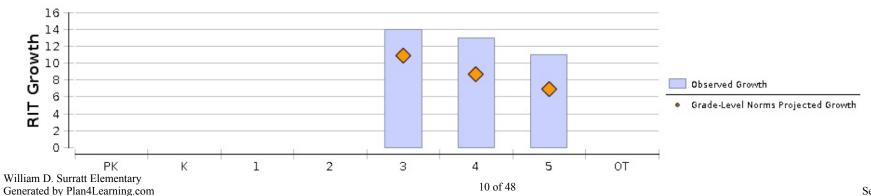

Academic year 2021-22 was a difficult year. Not only were students in third through fifth grade 1 to 3 grade levels behind, but we still had issues with excessive absences for both teacher and student. It was difficut to close gaps. Our focus at the start of this year was and will continue to be student growth. Student achievement on STAAR will reflect this gap in learning. I will share both MAP results, which will show the idividual growth that was made- but also STAAR scores, which will illustrate the work that needs to be done in the uocoming year. Additionally, you will see End of the Year (EOY) results for CLI Engage (PreK) and MCLass data (K-3). This data will indicate a breakdown in Tier 1 instruction in the lower grades.

MAP results are showing BOY to EOY data:

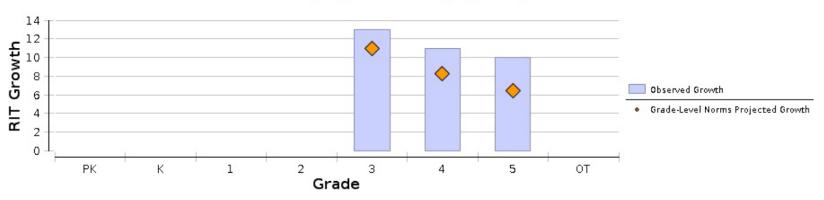

Language Arts: Reading

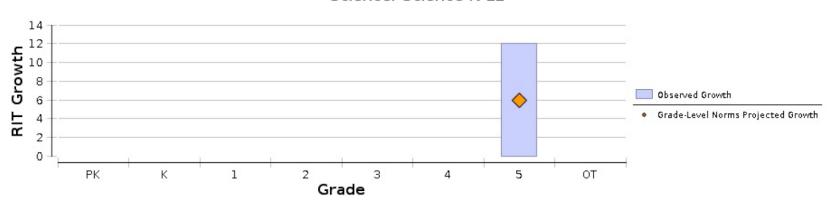

Campus #071901101 September 1, 2022 3:05 PM

Grade

Science: Science K-12

Although there was a great deal of individual student growth this year, achievement on STAAR is going to require us to do tighten up our Tier 1 instruction in PK-5. We are also going to need to create an intervention system that will close gaps without disrupting Tier 1 instruction.

Student Learning Strengths

- Struggling students have been targeted for additional support and a built-in intervention time has yielded individual growth.
- Daily SEL activities are implemented to support students through Covid 19 pandemic and challenges it has brought to family and school life.
- A focus on Tier 1 instruction and adherence to our Academic Framework has allowed us to surpass all 2021 data and even meet prepandemic STAAR achievement levels in several areas:

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Tier 1 instruction at the PreK-5 has created gaps that were compounded during Covid Remote learning years. **Root Cause:** Lack of training, coaching, support and follow through has allowed marginal instructional practices to continue in the foundational grades.

Problem Statement 2 (Prioritized): Although we have access to HQIM and to a viable curriculum and pacing guides, we are not seeing an adequate amount of academic achievement K-5. **Root Cause:** Delivery and execution needs to be monitored more closely, from the planning stages of the lesson to the closing of the lesson.

Problem Statement 3 (Prioritized): Teacher accountability by means of goal setting and data tracking is an area of opportunity for us. **Root Cause:** The expectation for teacher and student goal setting and data tracking was not made clear by Administration.

School Processes & Programs

School Processes & Programs Summary

Our leadership team meets every Monday morning to review calendar of events, plan strategically to meet our week's priorities. Campus administration and instructional coaches lead PLC every Thursday. Faculty meetings are held whenever necessary to ensure teachers are informed and updated on our campus goals or upcoming events. Teachers are given a full day of planning every nine weeks. These TEKS academies are lead by our curriculum coaches. Teachers plan their science labs, create their weekly lesson plans, and review data in order to guide instruction. Teachers contact parents regarding students' academic and attendance needs through Class Dojo, email, phone calls, school agendas, and parent/teacher conferences. Instructional leadership team communicates with all stakeholders through a campus calendar, monthly newsletter, ALL Calls, updated marquee, conferences, family nights, and a Campus Class Dojo. Principal communicates with faculty and staff through a weekly newsletter, grade level and individual conferences and through email. Students have opportunities to attend tutoring after school and during intersession.

Students receive additional support during the intervention block as well as after school for tutoring. Special Education teachers are assigned by greade level to help them focus on the grade content so they can become experts. Administration is divided by grade levels and attend PLC meetings for their respective grades as well as all ARD's. Discipline is addressed through our PBIS flowchart and then by administration if necessary. Our school PBIS team helps guide administration with campus wide behavioral and SEL needs. WDS implements SEL weekly lessons to assist students with strategies to deal with different situations they may encounter. The counselors adhere to an 80/20 plan in ordeer to offer class and individual lessons that will focus on different SEL traits and srategies. Additionally, WDS amplifies the Positive Behavior Interventions and Supports (PBIS) campus-wide through the use of the PBIS App and the PBIS store. PBIS Matrix posters hang throughut the school to ensure clear understanding on procedures and expectations in each area. WDS is a 1:1 campus, so every student 1st through 5th receives a chromebook and Pk/K receive an ipad. Students attend Music class every other week. There are literacy materials available for teachers to check-out books for their classroom. The campus offers extra-curricular activities which include: robotics, UIL, Bee Bots, Girls Who Can Code, broadcasting and student council. Students will have additional options to participate in enrichment camps like Arts & Crafts class, Book Club, Yearbook, STEAM, and others we will work on during the upcoming school year. Our special education program offers co-teach and Support Facilitation model in the which the general education and special education personnel teach in the classroom. Teachers also provide resource and specialized support for students that require additional support. WDS has one DSC (Developmental Skills Class) in which they have a teacher and two aides. We also house 2 ASC (Academic Skills Units). We have a Dyslexia and GT teacher who provide services for WDS as wel as FME.

WDS provides opportunities to get our community and parents involved. Our CIS organizes various activities to engage our parents and community. Parent sessions are offered monthly to support the campus goals. Coffee with the Principal is offered on a monthly basis. Our Counselors also organize activities that assist with parent engagement.

Data is looked at as a campus, teacher and individual student level to drive instruction. Data talks after each district assessment assist us to identify areas of need as well as vertical instructional gaps. RtI meetings take place monthly to discuss individual student needs. WDS is a

dual language school. Teachers have received trraining from Dr. Izquierdo and Dr. Medina. The district bilingual coordinators offered trainings that support the dual language goals. Teachers have the option to pair-up with antoher teacher to focus on one language in all content areas.

Listed below are other items that support our campus and district initiatives:

- Campus playbook created to focus on HQIM and specific instructional programs that will yield the highest return on achievement.
- Effective Schools Framework TIP participant
- Technology applications
- Front Row system in all classrooms
- Lu for PE
- Makerspace
- HMH Phonics/ ELAR Curriculum
- · Eureka Math
- Really Great Reading- Reading intervention program

School Processes & Programs Strengths

WDS has worked hard to implement systems that will support tighter alignment to TRS specificity and improve Tier 1 instruction. Our PLC process is a work in progress, and is one focus of our TIP- which should align our practices even more in the upcoming year. Additionally, we started a Super School system (embedded intervention time) that met students where they were at, and closed gaps due to lack on instructional opportunity. It took staff from all grade levels- a true campus effort.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1 (Prioritized): Although we have access to HQIM and to a viable curriculum and pacing guides, we are not seeing an adequate amount of academic achievement K-5. **Root Cause:** Delivery and execution needs to be monitored more closely, from the planning stages of the lesson to the closing of the lesson.

Problem Statement 2 (Prioritized): Teacher accountability by means of goal setting and data tracking is an area of opportunity for us. **Root Cause:** The expectation for teacher and student goal setting and data tracking was not made clear by Administration.

Problem Statement 3 (Prioritized): WDS average daily attendance has been dropping every year. Our campus goal is 98% **Root Cause:** Poor follow-up on attendance issues; poor system of tracking and support; Poor follow-up using the district truancy plan and addressing tardies during the school year.

Problem Statement 4: Half of our students are coded ELL, and yet we don't have equitable representation in school based programs such as GT, UIL, or robotics. **Root Cause:** The expectations set for our bilingual students are lower than those of monolingual students.

Problem Statement 5 (Prioritized): Tier 1 instruction at the PreK-5 has created gaps that were compounded during Covid Remote learning years. Root Cause: Lack of training,

coaching, support and follow through has allowed marginal instructional practices to continue in the foundational grades.

Problem Statement 6: The campus has had minimal community events to benefit the students. **Root Cause:** Covid 19 restrictions have limited campus activities due to safety protocols.

Problem Statement 7: Many of our students were unable to participate in afterschool enrichment activities. **Root Cause:** Because 80% of our students are bussed in, the same students participated in after school activities. We will be budgeting for transportation to support a "Magic Mondays" so that ALL students have the same opportunity.

Perceptions

Perceptions Summary

WDS sets high academic standards, and students are aware of the academic expectations of the campus. Many of our students came back from the pandemic remote year behind and struggle to stay on grade-level. Students with low performance and/or attendance issues need to be held accountable. Parents have also shared that there was a need to increase the communication between teachers and parents. Lower grades also had low performance in their respective assessments, however, their issues did not stem from Covid. We will be focusing on fidelity to Elar and math curriculum in the lower grades. The gaps created here were compounded by Covid in the upper grades. Teachers and students would like to see an increase in fun, innovative, content-related activities and/or field trips to provide enriching experiences for students. Live announcements are made daily in the morning.

There needs to be more consistency when it comes to the dress code and PBIS expectations. Discipline has not been an issue, however, there are some teachers that need classroom management assistance due to Sped students being overrepresented in discipline referrals from their classrooms. A student PBIS behavior plan needs to be established with clear expectations. Teacher office referral flowchart and matrix will need to be clearly and explicitly taught to teachers and students. Students use a check in system to assist admin and counselors in identifying and meeting the SEL needs of our students. Additional workshops for parents to improve parent to student relationships will be needed as well as workshops to help students at home. There have been limited activities for students and families on campus this year through the pandemic.

We are establishing school traditions and school spirit has become more consistent with the addition of our SEL/PBIS lead. The STEAM push has also led to more campus wide enrichment activities that we hope will flourish in the upcoming year. Campus activities need to be promoted more by the campus and the student body.

Communication from the WDS to CJHS is missing, and 6th grade teachers would like to meet with 5th grade teachers concerning student discipline and academic strengths/weaknesses. WDS sends "pink and blues" that have student discipline concerns as well as academic concerns to the 6th grade teachers.

WDS would like to work on the attendance to increase it. We want students to look forward to coming to school every day. Incentives need to be given to students to increase attendance, promote school pride and spirit.

There is also a need to increase parent engagement and involvement with their child's education. This year perception has been shifted to include the need for parents to be more involved in their student's attendance and grades. We are already calandering PFE activities for the upcoming year that will meet these needs.

Perceptions Strengths

In the light of the many gun violence acts against schools and other public places, families feel safe bringing their children to school. WDS has a strong safety protocol led by district officials. Parental communication about our safety procedures is good.

Our PBIS initiative is in full swing and it has been instrumental in creating a positive learning culture for both students and teachers.

Our "Full Steam Ahead" initiative has created many opportunities for ALL of our students to experience science such as robotics, coding, Agri-science and engineering through Makerspace and our science nights.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The campus has had minimal community events to benefit the students. **Root Cause:** Covid 19 restrictions have limited campus activities due to safety protocols.

Problem Statement 2: Many of our students were unable to participate in afterschool enrichment activities. **Root Cause:** Because 80% of our students are bussed in, the same students participated in after school activities. We will be budgeting for transportation to support a "Magic Mondays" so that ALL students have the same opportunity.

Problem Statement 3: Half of our students are coded ELL, and yet we don't have equitable representation in school based programs such as GT, UIL, or robotics. **Root Cause:** The expectations set for our bilingual students are lower than those of monolingual students.

Priority Problem Statements

Problem Statement 3: Although we have access to HQIM and to a viable curriculum and pacing guides, we are not seeing an adequate amount of academic achievement K-5.

Root Cause 3: Delivery and execution needs to be monitored more closely, from the planning stages of the lesson to the closing of the lesson.

Problem Statement 3 Areas: Student Learning - School Processes & Programs

Problem Statement 2: Tier 1 instruction at the PreK-5 has created gaps that were compounded during Covid Remote learning years.

Root Cause 2: Lack of training, coaching, support and follow through has allowed marginal instructional practices to continue in the foundational grades.

Problem Statement 2 Areas: Student Learning - School Processes & Programs

Problem Statement 1: WDS average daily attendance has been dropping every year. Our campus goal is 98%

Root Cause 1: Poor follow-up on attendance issues; poor system of tracking and support; Poor follow-up using the district truancy plan and addressing tardies during the school year.

Problem Statement 1 Areas: Demographics - School Processes & Programs

Problem Statement 4: Teacher accountability by means of goal setting and data tracking is an area of opportunity for us.

Root Cause 4: The expectation for teacher and student goal setting and data tracking was not made clear by Administration.

Problem Statement 4 Areas: Student Learning - School Processes & Programs

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- HB3 Reading and math goals for PreK-3
- Campus/District improvement plans (current and prior years)
- Planning and decision making committee(s) meeting data

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Effective Schools Framework data
- · Comprehensive, Targeted, and/or Additional Targeted Support Identification data

Student Data: Assessments

- State and federally required assessment information
- STAAR current and longitudinal results, including all versions
- STAAR released test questions
- STAAR Emergent Bilingual (EB) progress measure data
- Texas English Language Proficiency Assessment System (TELPAS) and TELPAS Alternate results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student failure and/or retention rates
- Local diagnostic reading assessment data
- Local benchmark or common assessments data
- Observation Survey results
- Istation Indicators of Progress (ISIP) reading assessment data for Grades PK-2
- Texas approved PreK 2nd grade assessment data
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Special education/non-special education population including discipline, progress and participation data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- Section 504 data
- Homeless data
- Gifted and talented data

- Dyslexia Data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Attendance data
- Discipline records
- Student surveys and/or other feedback
- Class size averages by grade and subject
- Enrollment trends

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data
- Evaluation(s) of professional development implementation and impact
- T-PESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate

Support Systems and Other Data

- Organizational structure data
- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Goal 1: William David Surratt Elementary will be a model of high standards for student academic excellence.

Performance Objective 1: Students in grades 3-5 will show growth in all areas of STAAR and MAP from the previous year.

High Priority

HB3 Goal

Evaluation Data Sources: PFE Survey

State Compensatory

Budget for William D. Surratt Elementary

Total SCE Funds: \$0.00

Total FTEs Funded by SCE: 8

Brief Description of SCE Services and/or Programs

Coding of At Risk Students Clint ISD uses the At-Risk Criteria to code students and benefit from the SCE program. The campus administration will ensure that all students, who meet At-Risk Criteria, are coded in the appropriate PEIMS submission. The PEIMS department reviews the criteria annually, and ensures all criteria are reviewed and submitted into the student data system – SKYWARD. Annual PEIMS Reviews ensure the coding is correct. Student Supports At all levels, staff are put in place to provide student supports and accelerated instruction. At the Elementary School Level, the district has funded curriculum coach positions and campuses have allocated funding for supplemental resources, extra duty pay for tutoring and travel for staff to gain knowledge of how best to support students. Elementary campuses also fund a Technology Coach to assist teachers and students with integrating technology to support instructional needs. Activities and Support Programs All district campuses conduct intervention programs to strengthen student academic skills. Campuses, at all levels, use SCE funds for extra duty pay for tutoring which will occur before, after-school and on Saturdays. The district also may use SCE funds for intersession. All campuses place SCE funding for resources to support intervention programs. These programs are designed to compliment the regular education program and offer additional supports for students who meet the SCE criteria. Data Review and Program Evaluation The campus and district teams, review student academic data after formative and summative assessments have been administered to ensure the success of programs, use of resources and effectiveness of staff. The Federal Programs annually evaluates the programs, staff, and activities funded through the SCE program. Campuses ensure that all activities are funded with the appropriate SCE funds which are actually entered into strategies of the CIP and DIP.
