## Economics Calendar 2019-2020

The following calendar does not contain the process standards but are included at the end of this booklet on page 14. The Seidlitz 7 can be found on page 16 and a table version of this calendar is on page 15 for your reference.

This calendar can be used along with the TEKS Resource System (IFD) to plan instruction. Quality instruction aligned with the curriculum at an appropriate level of rigor will ensure that students are successful.

The 3rd and 6th week are short checkpoints (10 items or less) covering only that 3 week window of instructional time. The 9 weeks checkpoint is longer (20-40 items); it covers content taught during the full preceding 9 weeks of instructional time. The 3-6-9 Week Checkpoints will include open ended and griddable questions. The 3rd and 6th weeks assessment can be taken for a daily grade at your discretion. The 9 weeks exam can be counted as a test grade at teacher discretion and data will be pulled at the campus and district level to support instruction. Please see CISD 3-6-9 Week Checkpoint FAQ.

# Social Studies Process Standards

(Blue—Tools to Know, Green—Ways to Show)

(21) The student applies critical-thinking skills to organize and use information acquired through established research methodologies from a variety of valid sources, including technology.

(A) analyze economic information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, and drawing inferences and conclusions

(B) create economic models, including production possibilities curves, flow charts and supply-and-demand graphs, to analyze economic concepts or issues

(C) explain a point of view on an economic issue

(D) analyze and evaluate the validity of economic information from primary and secondary sources for bias, propaganda, point of view, and frame of reference

(E) evaluate economic data using charts, tables, graphs, and maps

(22) The student communicates in written, oral, and visual forms.

(A) use social studies terminology correctly

(B) create written, oral, and visual presentations of economic information using effective communication skills, including proper citations and avoiding plagiarism

(23) The student uses problem-solving and decision-making skills, working independently and with others.

(A) use problem-solving and decision making processes to identify a problem, gather information, list and consider options, consider advantages and disadvantages, choose and implement a solution, and evaluate the effectiveness of the solution

## The 7 Steps.—John Seidlitz

1. **Teach students what to say when they don't know what to say**
2. **Have students speak in complete sentences**
3. **Randomize & Rotate when calling on students**
4. **Use total response signals**
5. **Use visuals and vocabulary strategies that support your objective**
6. **Have students participate in structured conversations**
7. **Have students participate in structured reading/writing activities**
